Subject Index to Volume 16

A

Advances in analysis of behaviour, review of .. 174
Angiotensin II and ventromedian hypothalamus in the pathogenesis of hypertension 77
Annual review of behavior therapy, theory & practice, review of 124
Arrhythmias, cardiac, in the monkey during classically conditioned fear and excitement 97
Asratyan, E. A., in memory of 179, 181

B

Behavior, morphine-seeking, and conditional fear and anxiety 163
Behavior, organ-system responsibility, schizokinesis, and autokinesis in 64
Behavior therapy, theory & practice, annual review of 124
Brain structures, need-informational interaction of 125

C

Cardiac activity in a simple reaction time task: predictive value of personality measures 151
Cardiac conduction disorders, accompanying the dive reflex in man 25
Cardiovascular response, long-term, time-series analysis of 204
Cognitive and two-factor theories, a test of 108
Conditional fear, anxiety, and morphine-seeking behavior 163
Conditioning, appetitive, in rats, effects of satiation after 18
Conditioning, autonomic, in chronic schizophrenics 8
Conditioning classic, of fear and excitement, cardiac arrhythmias during 97
Conditioning mechanisms, and emotions 194
Conditioning, perception as a function of 70
Conditioning, vasomotor, partial reinforcement and extinction in 108

D

Dive reflex in man, and cardiac conduction disorders 25

E

EMG and SCL, a comparison of, in normal and depressed subjects 212
Emotions and conditioning mechanisms 194
Ethology and nonverbal communication in mental health, review of 173

H

Higher reflexes 131
Homeostasis, the role of learning in 67
Human brain in health and disease, review of .. 221
Hypertension, limbic, induced by stress and septal stimulation 80
Hypertension, pathogenesis of, angiotensin II and ventromedian hypothalamus in 77
Hypothalamus, ventromedian, in the pathogenesis of hypertension 77

I

Instrumental responses, training of, in dogs 183

L

Lateral eye movements as indicators of processing strategies in paired-associate learning: their effect on recall, recognition, and error type 157
Learning, paired-associate, lateral eye movements as indicators of processing strategies in, their effect on recall, recognition, and error type 157
Learning, the role of, in homeostasis 67

M

Man in his environment: reflections by W. Horsley Gantt, Neal E. Miller, and Joseph Wolpe 63

N

Need-informational interaction of brain structures 125
Nencki Institute of Experimental Biology 118
Neuronal organization of subcortical formations of the forebrain, review of 220
Neurophysiologic investigation of systems mechanisms of behavior, review of 222
Neurophysiology, the two-way connection as a basic principle of 1
Nocebo: the psychologic induction of pain 140

O

Orienting reaction, alterations of, in patients with late posttraumatic mental disturbances 90
Orienting reflex in humans, review of 176
Orienting response elicitation, signal value and preliminary processes in 144

P

Pain, psychologic induction of 140
Panel discussion, Gantt, Miller, and Wolpe 73
Pavlovian society, abstracts of the annual meeting 34
Perception as a function of conditioning 70
Personality measures, predictive value of, in a simple reaction time task 151
Poland, science in: the Nencki Institute of Experimental Biology 118
Probabilistic mechanisms of nervous activity, review of 220

R

Reflexes, higher 131

S

Satiation, effects of, after appetitive conditioning in rats 18
Signal value and preliminary processes in OR elicitation 144
Skin conductance level, a compariosn of EMG and, in normal and depressed subjects 212
Social psychophysiology, some reflections on the development of, editorial 217
Stress, limbic hypertension induced by 80
